## Tek-Wall Twist

### 300010

**maharam**

#### **Greenguard and Greenguard Gold Certification**

Tek-Wall Twist is Greenguard certified and Greenguard Gold certified as a low-emitting material.

• Certification: T10So99122-4

Greenguard certification verifies that chemical and particle emissions fall within acceptable indoor air quality pollutant thresholds for adults. Products are tested for emissions of formaldehyde, volatile organic compounds (VOCs), respirable particles, ozone, and other pollutants using environmental chamber protocols designed to simulate typical indoor environments.

Greenguard Gold certification is a separate program tailored to the needs of children who have a greater sensitivity to indoor air quality. Greenguard Gold sets lower thresholds on allowable emissions by a factor of 0.43 to account for the needs of educational environments. Greenguard Gold certified textiles comply with CA Section 01350 requirements for schools and are accepted for Collaborative for High Performance Schools (CHPS) Low-Emitting Materials credits.

#### **Facts Certification**

Facts Certification (NSF/ANSI 336) is an ANSI (American National Standards Institute) standard that assesses the level of the sustainability of commercial furnishings fabrics developed by NSF International in collaboration with ACT (Association for Contract Textiles) and is modeled after other multi-attribute sustainability standards such as BIFMA's (Business and Institutional Furniture Manufacturer's Association) Level certification. Facts is a voluntary set of guidelines and assesses a range of environmental issues specific to textile manufacturing practices including: fiber sourcing, safety of materials, water conservation and water quality, energy, recycling practices, air quality in manufacturing and social accountability.

Organizations may achieve first-party, second-party, or third-party conformance and textiles may achieve Compliant, Silver, Gold or Platinum certification status based on total points achieved.

Tek-Wall Twist is Facts Gold Certified.

#### **REACH Compliant**

REACH stands for the European Community Regulation on chemicals and their safe use. The aim of REACH is to improve human health by requiring manufacturers to gather information on the properties of their chemical substances, register the information in a central database run by the European Chemicals Agency, and substitute Substances of Very High Concern (SVHC) when suitable alternatives have been identified.

The resource that produces Tek-Wall Twist has fulfilled their obligations according to REACH and has confirmed they have made the necessary pre-registrations for the chemicals involved in the production of Tek-Wall Twist. Tek-Wall Twist is REACH Compliant.

#### **Environmentally Improved Manufacturing Processes**

• Tek-Wall Twist is free of flame retardant chemicals.

#### **Manufacturing**

Location of Manufacture: Saint-Georges, QC

Location of Harvest/Extraction: Due to the complex and changing nature of the textile supply chain, location of harvest/extraction is unknown.

#### **Recycled Content**

75% Post-Industrial Recycled Polyester, 2% Post-Consumer Recycled Polyester

**LEED**

Tek-Wall Twist may contribute to the following LEED points:

- LEED V4 ID+C MR Credit: Building Product Disclosure and Optimization - Recycled Content
- LEED V4 ID+C MR Credit: Building Product Disclosure and Optimization - REACH Compliant
- LEED V4 ID+C EQ Credit: Low-Emitting Materials

**Biodegradable and Recyclable Content**

Maharam does not make claims that could misrepresent the environmental attributes of its products. At this time, a national infrastructure to collect and process textiles at the end of their useful lives does not exist. For this reason, Maharam does not claim that any of its products are biodegradable or recyclable. Maharam supports industry initiatives to develop these facilities, but until such a system is in place, Maharam's position is to not label its products as either biodegradable or recyclable.

Maharam's cardboard packaging materials are readily recyclable.

**PFAS-Free**
