Brief

Palampore originated as a series of twenty-one paintings of tree of life imagery interpreted from Palampore and is a type of hand-painted, mordant-dyed cloth common in India during the 18th and early 19th centuries that was designed primarily for the European export market. Using watercolor paint on Japanese paper, each panel offers a different interpretation of the symbol in both fantastical detail and loose, gestural motifs.

Warranty

3 years.
